Il corso, destinato ai Chirurghi, fellows ACS, ai giovani membri della RAS-ACS e agli specializzandi in chirurgia, è un ottimo mezzo per rimanere aggiornati su tutta la chirurgica generale. Negli USA l'American College of Surgeons offre il corso per preparare i chirurghi americani ad ottenere il loro certificato di abilitazione chirurgica. Il materiale didattico che sarà dato ai partecipanti sarà in inglese e di conseguenza **IL CORSO SARÀ IN INGLESE.**

ACS General Surgery Review Course

This two day course provides a concise review of the essential content areas in general surgery, including abdomen, gastrointestinal tract, trauma, critical care, breast, endocrine, vascular, and perioperative care. International faculty uses a case based, interactive question and answer format with an audience response system. Correct answers are discussed by the faculty and participants receive a syllabus with the case based questions, answers, supporting discussions, and bibliographies
